

OUR VISION

“education is the birth right of every child. A child is born with great potentialities. There should be a reinforcing system of education where no child is ever rejected,

Where the child is aware that he/she could do great things, where personal attention is given to every child focusing on physical, intellectual, emotional and spiritual strengths which are the four main pillars of education”

OUR MISSION

- To provide a strong foundation for the child in education to become a great leader in the shifting and changing global scenario.
- To establish a chain of schools/institutions where children grow up in the natural environment
- To provide state of the art facilities to the students to develop themselves. ‘Learning by doing’ is the motto, where learning is a pleasure.
- To mould a child to be society committed and globally competent
